CHARLOTTE.

Thursday, July 15, 1869.

Special Correspondence of the Baltimore Gazette.
Washington Letter.

WASHINGTON, July 11.—The objects accomplished by the result of the elections in Virginia, however important, excite secondary interest here when compared to the evidence this great political revolution furnishes of a previous wholesome change of public sentiment everywhere. It is well known that the primary purpose of the Radical party of making the negro, politically and socially equal at the North, was beginning to "stink in the nostrils" of all decent men. The manifest design of forcing the negro into the Trades Unions (or to break them up), helped amazingly to open the eyes of the rank and file in the Northern workshops. The adoption of the Fifteenth amendment by packed Radical Legislatures, without permitting the people they pretended to represent to have any voice in the matter, aided, and the utter failure of the new Administration to respond to the general desire for the real pacification of the country, completed the disgust of the people. The sweeping defeat of the Radicals in Virginia is but a reflex of this general disgust, of which decisive evidence may be expected in the fall elections.

General Grant has it yet in his power to retrieve the error into which he fell at the beginning of his Administration, and I am informed he is aware of the absolute necessity of discarding the advice of the men by whom he has heretofore been guided. The people (however befogged for a time) will never deliberately sanction the impracticable and revolting theories of Sumner's faction, when attempted to be reduced to practice. The time has happily at last come when, backed by the people, he may assume a Conservative position without danger of even the anathemas of the extremes of his party. In such a course he will be sustained by the nation at large, and may laugh to scorn the faction that will be left in the opposition gutter.

As a sign of the times in this connection I may note the encomiums of the Radical press upon the Governor elect of Virginia. It is a little singular that good sound Democrats may find, upon examining it, much to commend, very little to carp at by any one, *and nothing at all to condemn* by Democratic Conservatives. What Forney and his coadjutors here obiefly admire is Mr. Walker's advice as to the treatment of the negroes. Here it is:

"Let us not, my fellow-citizens, in this our hour of triumph and supreme joy, forget that chiefest of Christian virtues—charity. Let us bear no ill-will or resentment to that poor, misguided race, which has been deluded and misled by designing and unprincipled men."

The Radical press, however, have for reasons of their own, seen proper to exclude from their columns other morals equally commendable. The following is especially commended to their notice:

"The election returns which have poured in from e very section of the State speak a language too plain to be misunderstood' They bring tidings of a victory such as never crowned the efforts of a political party in any previous campaign *in the history of this grand old Commonwealth.* I told you, fellow-citizens, from these steps a week ago that we were bound to triumph, and I *pictured to you the legion of the motley crew of carpet-baggers from Virginia. I saw one upon his mule just now, with his carpet-bag duly labelled."*

"Fellow citizens, I congratulate you this day, notwithstanding the unblushing slanders and falsehoods which have been propagated and circulated throughout the land, that you and I stand shoulder to shoulder with the President of the United States for the emancipation of the white race in the South. I have everywhere done honor to the President, will you not do so to-day? We are indebted to the personal efforts of the President to day that the masses are have been stricken from the limbs of eighty thousand white Virginians."

Under these circumstances, will Congress dare refuse the admission of Virginia?

In a little while the effect of "progressing" events will be seen in the newspapers of the Sumner wing of the "party." Already straws are floating here and there, showing the course of the wind. Secretary Rawlins has repudiated a large part of the enormous and doubtful bill of the *Chronicle* for Departmental advertising. The Boston *Post* thinks the War Minister will shortly be classed as "a red-handed rebel and traitor." I have frequently spoken of Mr. Rawlins as a very intelligent man, and from this specimen of his honesty, have hopes he will, in good time, become "one of us." Another. While in Boston at the great musical cannonading, although invited, General Grant was not present at Butler's review of his troops. It has transpired that the hero of Fort Fisher now openly accuses the President of being absent in consequence of drunkenness! This is a very decided straw. Still another. The *Chronicle's* not yet ready to attack his Excellency personally, thus ironically assails him through his brother-in law and son. He heads the missive a "Brave act:"

"On Wednesday afternoon the sons of Dr. Sharpe, United States Marshal for this District, and Masters Grant and Dent were bathing in the Patuxent river, near Laurel, Maryland, when Dent Sharpe, aged about eleven years, cried out that he was drowning. *Dr. Sharp immediately began to divest himself of his clothing,* and in the meantime young Fred. Grant, now on vacation from West Point, jumped into the river and rescued his little cousin by seizing him by the hair just as he was sinking the third time, not even waiting to draw off his boots. Young Fred. was commended many times during the day for his daring and courage on so momentous an occasion."

When it is remembered that the stream at the point mentioned is not more than two or three feet deep, nor more than twenty wide, the sarcasm seems bold enough in its application to young Grant. But the assertion that a father would stop to divest himself of his clothing "before jumping into such a raging current" to save a drowning son, is absolutely brutal. The facts, I learn, are entirely perverted.

Senator Cameron has gone home with a very long face. He expresses himself quite unable to see anything certain through the official telescope. Every object seems exceedingly dim and doubtful. He will, however, follow Grant's lead and apropos. I learn to-day that Senator Wilson has declared himself in favor of universal amnesty. He and Sumner here part company.

DEATH OF A CLERGYMAN IN THE PULPIT.—On the night of Sunday, the 4th instant, the Rev John Long, of Thomasville, N. C., Methodist divine, began preaching to a large congregation in Welsey Chapel, Atlanta, Ga., of which the Rev. Mr. Kimball is pastor. The Atlanta *Constitution* says:

"He had continued some ten minutes, when he suddenly stopped, and with a livid face and gasping utterance asked Mr. Kimball if anything appeared to be the matter with him. He sat down in an easy position, folding his hands and throwing his head back on the sofa in a reclining manner. Perceiving his illness and at the same time observing that he was quiet, Mr. Kimball arose and concluded the sermon, all the time thinking that Mr. Long was better, from his quiescence. As he ended his sermon he turned to speak to Mr. Long and found that he was speechless. It was an apoplectic stroke, from which he never recovered. He died Monday morning about five o'clock. Mr. Long was a gentleman of fifty-eight years of age, of irreproachable character and high Christian standing. He had been in the city but a week or two, and contemplated making his residence here. His family are still in Carolina, and have yet to learn the terrible intelligence. Mr. Long was buried this morning with due solemnities. Masonic honors were paid to him.

Novel weapons were lately used by a husband and wife in Trenton, New Jersey, in a quarrel; while at tea in their house in Calhoun's lane. The man, stung into a passion by the sharp and bitter tongue of his wife, first picked up a boy and flung him at her, but this novel missile, after flying howling through the air like a screaming shell, brought up against the stove and exploded in a series or terrible yells. The man then snatched up another child and hurled it at his wife. This one struck with a dull thud against the wall, and the uproar became dreadful. The father was then about to seize the baby, when the wife, who had been somewhat astonished at these extraordinary proceedings, picked up a coffee-pot filled with beverage hot from the stove, and hurled it with so true an aim and so vigorous an arm as to bring the infuriated man to the floor and to terms at one and the same time. The children fortunately were not seriously hurt.

IMPORTANT RUMORS FROM FRANCE. Cable telegrams allude to changes of an extensive character. The French Emperor, taking his cue evidently from the results of the late elections, is willing to surrender in a measure the arbitrary power which he has wielded since his assumption of the imperial purple. Personal government is to be abandoned—at least such is the indication—to make way for a government more in harmony with the wishes of the French people. Napoleon, learning another lesson from the past, and desirous of acceding to the aspirations of his subjects, is about to enter upon a policy which, while it is at variance with Napoleonic teachings, is such as will increase his popularity at home and claim additional consideration for intelligence as a ruler abroad.

Mr. Andrew Johnson's assault on Grant is notably published in about every Radical paper in the country. Of course they demur to it, but their printing of it really shows how glad they are to get a hit in on their own President.

STATE NEWS.

George C. Wilson, a young man from this city, who left for *California* a few weeks ago has been heard from. He is nicely settled down, in the Quarter Master's Department in Cuba, having received his bounty, and is now serving the Cubans in a very agreeable way.—*Sentinel.*

CARPET BAG DAVIS.—Is it true that Governor Holden's friend, the above named, who is Senator from Montgomery and Randolph, and Treasurer of the Fayetteville and Western Road, was well beaten with a chair by a widow lady of Montgomery, for insulting her? Will some citizen of Montgomery give us the facts? We don't care to expose Davis, but it goes to the discredit of Gov. Holden and his administration, that he prefers such carpet baggers for official positions.—*Ib.*

A FIENDISH RAPE.—A diabolical outrage was committed on the person of a small colored girl about ten years of age on the suburbs of the city, in the vicinity of the old Camp Lamb hospital, about dark Sunday afternoon last.—*Wil. Journal.*

A Good Cup of Coffee.

This is a rare thing. The reason is, people do not know how to make it. Sometimes, however, they are too stingy, and often too poor; but mostly ignorant. A good cup of coffee can only be made from good coffee. You might as well attempt to make cidar from worm wood, as to make good coffee where the good does not exist. We value coffee for its flavor. If that is perverted or lacking, no good beverage can be obtained. Few things have a stronger attraction for odors that come in contact with it than coffee, whether in a raw or charred state, but particularly the latter; and the nearer the coal is reached, the more will the aptitude prevail, as charcoal is known to be a powerful absorber. Coffee when bought, therefore, should be bought with a view to this. The best way to ascertain is actual test; roast your coffee, and prepare a dish—then purchase what you want. This is our plan—and then there is no risk. Much depends on the browning. Half of your coffee should be roasted till it assumes a russet tinge; he other half a chestnut. The principle here is, that *variety* of taste is obtained—both the higher and the lower flavors are secured—the one more active and purgent, the other milder, and bringing to play qualities which the former does not possess. The highly browned has then more changed, and probably loses some by the excess of heat. We have already stated in previous numbers the general details of making coffee, and need not repeat them here. The variety obtained by the different degrees of browning is comparatively new to us, and we presume to most people; and having tested with satisfaction its benefits, we here state the fact for the information of our readers. One word more. Browned in this way, you get the *whole* benefit of coffee, and you will cover all tastes. You have then what coffee is able to give you in all its interesting variety—all the fine flavors, and their combinations. We presume still other shades of browning added would improve it, if that were possible, avoiding only the raw and the coal—the two extremes.—*Coleman's Rural World.*

THE VENGEANCE OF HEAVEN.—The Knoxville *Press and Herald*, of the 4th inst., says that of the knot of radical Ku Klux engaged, some fifteen months ago, in cruelly whipping Parson Neal, a Southern Methodist preacher, traveling in pursuit of his calling, three have since died, one was lately thrown from his horse and killed, a fifth is in jail for crime, a sixth was struck by lightning, and in the same storm the tree to which Neal was tied while they were whipping him, was rent in twain by a thunderbolt!

The Galveston *News* is informed by General Roberts on that in his practice as a physician, he has taken pains to keep a record of the vital statistics of Washington County, Texas, and the result shows that while the white population has increased in the usual ratio, the negroes have dimished in number nearly ten per cent. per annum in the past four years.

A lady was examining an applicant for the office of "maid of all work," when she interrogated her as follows: "Well, Mary, can you scour tinware with alacrity?" "No, ma'am," replied Mary, "I always scour them with sand."

The political situation in France is becoming daily more interesting, and at present commands the attention of the European press. The proposed reforms appear in a fair way of early consummation.

The Emperor Napoleon literally "speaks by the card." His recent speech at the Camp of Chalons was printed on small cards and distributed to all the soldiers present.

"Mary," said one girl to another, "can you make up your mind to marry that odious Mr. Snuff?" "Why, my dear Julia," was the reply, "I don't know, but I might take him at a pinch."

LATEST NEWS.

Washington.

WASHINGTON, July 12.—Judge Chase has ordered a hearing of the application for *Habeas Corpus* in the Yerger case now under trial in Mississippi by military commission for the killing of Col Crane. At eleven o'clock, Wednesday, Chase has ordered notice of the hearing to be served upon the Attorney-General. Judge Chase it appears has no discretion in the matter. The first point argued will be that of jurisdiction, if that be decided affirmatively, then the merits of the military commission will be argued, because the Judge will not grant a *habeas corpus* unless the facts alleged in the petition would entitle him to discharge the prisoner. In other words, Judge Chase will not have the prisoner brought from Mississippi only to recommit him to the custody of that commission.

In this branch of the hearing the recent opinion of Attorney General Hoar in the Weaver case comes up for review and adjudication; and a decision of the constitutionality on the part of the reconstruction acts authorizing military trials in the present condition of the country will be given.

Judge Louis Dent writes a letter addressed to J. L. Wofford and A. L. Jenks, responding to a letter tendering Dent the nomination of the Conservative Republican party of Mississippi for Governor. Herein Dent says, "If I can in the least be instrumental in restoring the State of my adoption to her normal place in the Union, and securing to her a good, loyal administration, you have permission to use my name for any position within the gift of the National Union Republican party of your State. The platform adopted by your convention at Jackson, on the 23rd of June last, I most heartily approve and endorse."

The Howard Asylum of Georgia for aged and infirm negroes has been organized, Jacob R. Davis, President; W. P. Edwards, Vice President, and seven Directors.

The Conservatives of Texas and Mississippi have little hope this evening of securing an election earlier than the last of November.

Nothing pointed has transpired regarding Governor Walker's interview with Grant, beyond noncommittal cordiality.

Mr. Robeson, the new Secretary of the Navy, responding to New Jersey friends, said regarding Grant's administration: "As the policy by which the rebellion was finally subdued was the policy of action rather than profession, so the policy of the present administration under Grant's administration must be judged by its fruits. With no startling announcements, with no professions of splendid policy, the administration of General Grant endeavors quietly, persistently and honestly, to perform each day the duties which each day finds before it."

LONDON, July 13.—The Emperor Napoleon yields to the Corps Legislatiff. No change of the ministry has yet been announced, but an early reorganization is certain throughout. The Emperor has exhibited peculiar tact and shrewdness. He had nearly all the members of the Corps Legislatiff to dinner and soiree at St. Cloud, chatted playfully with many of them of different shades of opinion and giving expression to many piquant sayings.

A DISLOYAL OLD NIGGER.—A lady who overheard the conversation relates to us the following incident:

Our informant's cook has a son, a small boy, whom she sent to pick berries. The weather was very warm, but the boy buttoned himself up closely in the remnant of a Yankee overcoat. When he returned, his mother observed it, and accosted him—

"What you ware dat thick coat for sich a hot day as dis?"

"'Cause, mammy," replied the loyal boy, "de Yankees does it."

"You're a little fool," said the indignant old mammy; "do you 'spose de Yankees got so much sense as we 'Mericans has?"—*Montegomery (Ala.) Mail.*

One of the emigrant agents of the State of Minnesota has just returned from Europe, and reports that he has succeeded in inducing seventy five thousand Swedes to come to that State this year.

SPECIAL NOTICES.

A book by General Lee will awaken such special interest, that we are glad to call attention to it. The UNIVERSITY PUBLISHING COMPANY of No. 4 Bond Street, New York, announce that they have now in press, and will issue in a few weeks, "Memoirs of the War," by Gen. Henry Lee, thoroughly revised and corrected by Gen. R. E. Lee who has added, also, an entirely new biography of his father, prepared by him from private and personal materials never before used. It will be a large and handsome octavo volume, illustrated by new steel portraits of Gen. Henry Lee and Gen. Nathaniel Greene; beautiful steel engravings of "Marion Crossing the Pedee," and the "Surrender of Cornwallis," and five original maps and plans. Our readers need not be told that this is a work of great interest and value. It is the standard history of military operations at the South during the revolutionary war, and as such is a book which every reading man should possess; but its interest and value are both greatly increased by Gen. Robert E. Lee's thorough revision and correction, and by the valuable biography of his father which he has written and added to it.

We are sure that this announcement, alone, is sufficient to give the book a very great sale, but when we add that Gen. Lee is personally interested in its publication, such a sale is made certain.

As we learn that the book is to be sold by canvassing agents only, those who desire to engage in its sale should make early application to the publishers.

Summer Perils—How to Escape Them

It will not do to trifle with the health in hot weather. Vigor oozes through the skin at every pore, and it is by physical vigor only that unhealthy influences can be baffled and repelled. The vital elements are evaporated in perspiration. Intense heat converts a man into a self acting pump, and the moisture that is pumped out of him is derived from the well springs of life within him. There is great need, therefore, that these sources of physical strength should be in a condition to bear, without danger or inconvenience, the extraordinary drain. If they are not in such a condition, the individual becomes languid and low-spirited.

The main thing is to keep the digestive apparatus in good working trim; for if the stomach, the purveyor of the system, does its duty thoroughly, the liver, the bowels, the brain, and the nervous system, being duly nurtured, will be likely to do theirs. In view of these facts, it is manifest that a powerful and wholesome vegetable tonic like HOSTETTER'S STOMACH BITTERS is especially required at this enfeebleing season. It is the most admirable of all correctives and invigorants, and for this reason: it does not over-stimulate the system. The proportions of aperient, tonic and stimulating components are so judiciously graduated, that the processes of invigoration and purification go on simultaneously, and no undue excitement is created in the circulation of the brain. All unmedicated stimulants, however pure, excite the pulse and the nervous system. Their exhilarating effect is temporary, and when it passes off the physical and mental depression they were employed to remove returns in an aggravated form. But this is not the case when HOSTETTER'S BITTERS are taken as a stomachic and nervine. The medicinal herbs, roots and gums with which they are impregnated, neutralize the exciting principle of the rye spirit which forms their basis, and which is in itself the most wholesome of all the varieties of alcohol.

PAIN KILLER.

MANHATTAN, Kansas, April, 17, 1866.

MESSRS. PERRY DAVIS & SON,

GENTLEMEN:— * * * I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849 and with better success than any other medicine. I also used it here for Cholera in 1855, with the same good results. A. HUNTING, M. D

* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

THE CITY.—A few evenings since, in one of John W. Wadsworth's best turn-outs, we took a drive through the city, sight-seeing. We went to the Cemetery, which is one of the most picturesque spots in this vicinage, and under the fostering hand of a landscape gardener could be made a lovely spot. We found old man Seagraves at his post, doing his best to keep up the fences and the walks free from grass. A small house ought to be built near the gate for his use.

We went through the highways and byways, and never before have we seen the streets in such order. M. W. Robinson, Street Superintendent, certainly has done his duty faithfully. So much improvement, and so neatly and judiciously done, shows that he has given it his personal and close attention. These improvements will be continued until all the streets are made good.

We understand that the finances of the city are in a most satisfactory condition; a large debt which the present Board found has been paid off, and money enough remains in the Treasury to meet all calls that may be made.

Mayor Dowd needs no commendation from us, but we must be permitted to say that he has discharged his duty as Mayor with ability, and with an eye to the interest of the city. There is nothing that escapes his vigilance.

In our peregrinations, we saw many neat, and a few very handsome, houses going up. Mr. John L. Brown is erecting a superb brick dwelling on the South corner of Mr. Peter M. Brown's lot, which will be an ornament to that part of the city. The first story is up, and soon the passers-by will be able to judge of Mr. Brown's taste and liberality.

Lower down on the same street, on a portion of Mr. Munzler's lot, a gentleman from Augusta has erected a Tannery, and it will soon be in operation. This is an enterprise in the right direction, and we trust it will meet with abundant success.

The brick work on E. M. Holt & Co.'s large store is now completed. Taylor & Allison have turned out a job that is highly creditable to them as master mechanics.

Hutchison, Burroughs & Co. are building a first class warehouse on College street, of which more will be said when further progress has been made.

The Masons have in contemplation the erecting of a Temple, which will cost between $25,000 and $30,000, to be built on the joint stock plan. They are determined that it shall be equally as handsome as any building in the State.

We hear of other enterprises, but they are inchoate, and will not be mentioned just now.

The prospects of our city were never more promising. The dull months have passed, the Simoon has spent its fury, and we have no wrecks to chronicle. All our business houses are on solid ground, and will go into the Fall and Winter trade under better auspices than ever before.

The health of the city so far is good, and with clean streets and the free use of disinfectants, we hope will remain so.

HARD TO BEAT.—We were informed by a friend yesterday that Mr. John Henderson, of Union county, has a stalk of cotton with one hundred and sixty (160) forms upon it.

GENTS' FUNISHING GOODS.
In regard to Clothing, it would be useless to mention it, as the public know that we always have and still keep the best and latest styles.
We could not do ourselves justice by only saying that we have the prettiest, best assorted, and most complete Stock of Goods, generally kept by a first-class Dry Goods House, but, would appeal to the Ladies of Charlotte and surrounding country, and the purse generally, to come and examine our Stock. We take pleasure in showing our Goods.

Commenced, April 23,

APPLETON'S JOURNAL

A WEEKLY PAPER,

Devoted to Literature, Science and Art.

Omitting ordinary news, and avoiding partisan advocacy, both political and sectarian, the JOURNAL will be devoted to general literature, to science, art, and education, and to the diffusion of valuable information upon subjects of public importance. It is intended to make use of all resources, original and selected, domestic and foreign, which can give interest and variety to its pages; and neither expense nor effort will be spared to secure the aid of the best talent of the time. We abstain from the large illustrated and the parade of conspicuous names so common on these occasions, and, trusting to the intelligence of the people, shall be content to let the Journal speak for itself.

The department of literature will embrace:—

Fiction, in the form of both Serial Novels and short Stories;

Essays upon Literary and social Topics;

Sketches of Travel and Adventure;

Discussions upon Art, Books, and Kindred Themes;

Papers upon all the various subjects that pertain to the pursuits and Recreations of the People, whether of Town or Country; and

Poems by our Foremost Poets.

Illustrations will form an important feature in the plan of the JOURNAL. Nearly every number will be accompanied by either an

Elaborate Supplement on some Popular Theme, a Steel Engraving in the best style of the Art, or a large Cartoon Engraved on Wood.

No. 1.—*Contains a Cartoon of the Grand Drive in the Central Park, a Spirited and Animated Scene.*

No. 2.—*Contains an Eight-Page Supplement of Underground Life and Mining, with 10 Illustrations.*

No. 3.—*The Last Supper of Jesus, from a Picture by Kensett.*

No. 4.—*An Art Supplement, containing New York Illustrated with 13 Superb Illustrations.*

No. 5.—*A Superb Cartoon of the Season in New Orleans.*

Novelty, freshness, and continual change will be aimed at in this department. The illustrations will generally be such as works of art; topics on steel, and the Cartoons, consisting of views of American scenery, by our most distinguished painters, and humorous of character and life, by our foremost designers. They will be printed with extra care on separate sheets, and may be either bound in the volume at the close of the year, or framed to hang upon the wall. The NUMBERS, in this feature, will be unlike any other.

Each Number of

ROCKBRIDGE ALUM SPRINGS, VA.,

OPEN MAY 15th.

This favorite and celebrated summer resort is now in complete order for the reception of guests.—Some important improvements have been added to the buildings since the establishment passed into the hands of the present proprietor, and it is his purpose to keep it in a style not surpassed any where in Virginia.

The remarkable medicinal and curative power of the waters is well known to the medical profession and to the springs going public. As an ALTERATIVE, A DIFFUSIVE STIMULANT, AND TONIC.

There is no known mineral water equal to it. In all anæmic conditions of the system, and broken down states of the constitution, loss of appetite, and general nervous prostration, its powers and virtue as a restorative may be safely pronounced to be without a known rival among the mineral waters of the world. They are ESPECIALLY INDICATED in the whole class as ailments peculiar to the female constitution.

The Proprietor will have provided for the Lawn and Ball Room a first-class BAND OF MUSIC, and in general, all the sources of amusement and recreation, usually found at our best summe resorts, will be at the command of the guests at Rockbridge Alum.

The place is within 11 to 13 hours of Richmond, Washington, Baltimore and Lynchburg, by rail, and 8 DAYLIGHT. Passengers leave the cars of the Chesapeake and Ohio Railroad at Goshen Depot, and new and elegant stage coaches, passing rapidly over a smooth and level road at only eight miles, set down the visitors at the Springs to tea.

The Rockbridge Water, put up in GLASS, containing ALL its medicinal qualities can be had at the well-known Drug houses of

JOHN H. McADEN, CHARLOTTE, N. C.

WILLIAMS & HAYWOOD, RALEIGH, N. C.

who will furnish on application, pamphlets containing the analysis of the water, and letters from eminent physicians, with a few certificates out of many of the wonderful cures made by these waters.

on its Life Policies, which have paid two annual premiums, and the same is available on such policies at next renewal to all creditors, or reduce such payments.

The dividend could have safely been larger, but with the

The company is now only in the *eighteenth* month of its active operation—yet

S. B. SEXTON'S CELEBRATED

PATENT BALTIMORE PARLOR HEATERS AND GAS BURNERS,

for Anthracite or Bituminous coal, have been in successful operation for the last ten years, and have proved to be the best Fire-place Heaters manufactured and put in operation. They are getting to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dwellings and offices. Two or three Stoves heating the largest dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate fire, but are more ECONOMICAL, CLEANER, and RADIATING A LARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in use.

We manufacture our own COOKING STOVES, and we guarantee them to be equal to any sold for *baking* and *cooking*. We have Stoves to take in *long wood* and with *large ovens*, and are *superior Stoves for baking*. We are getting out some new patterns of Cooking Stoves, that will burn *Bituminous coal, hard coal, or wood*. They will have a beautiful finish, and will stand among the Best Cook stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the best and cheapest in the market.—Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new patent Hot-Air Furnaces, warranted to burn from 30 to 70 hours with once filling.

Thanking our friends and the public for their past favors, we solicit a continuance of their patronage.

PIANO-FORTES.

The last new addition to our different styles is attracting the admiration of both critics and populace. We mention specially, some of the claims of this new *Piano*. Believing the exterior should be as beautiful to the eye as melody to the ear, we have paid great attention to getting them up in a style that is conceded by all who have seen them to be the handsomest Piano-Forte made. They are an entirely new style, with four round corners, heavily carved legs and lyre, base richly moulded, and contains *our latest improved new style and action*. The tone is melodious, and its adaptability to passages of every shade of expression, from the softest murmur, the crescendo and the FF, gives the perfection every advantage of the *Concert grand*.—Price $500.
